

# MOONBLAST

## PREMIUM INVESTMENTS WITH LIQUID VESTING

MoonBlast is an innovative decentralised launchpad on EVM-compatible L2 networks, driven by the MNB Token, that sets the standard for quality-centric investing, allowing investors to seamlessly liquidate their vested tokens for enhanced flexibility and returns.

Engage in startups through staking, farming, vNFTs, or MNB token lockups - exclusively endorsed by our esteemed backers and partners.

### FOR EVERY INVESTOR THAT VALUES QUALITY OVER QUANTITY

### MULTI-DEAL DECENTRALISED LAUNCHPAD

Revolutionize fundraising with our Multi-Deal Decentralized Launchpad, tailored for diverse ventures in the decentralized ecosystem.

### LIQUID VESTING

Enhance vesting with MoonBlast's award-winning vNFT. Fractionalize vestings, effortlessly liquidate fractions for increased efficiency and flexibility.

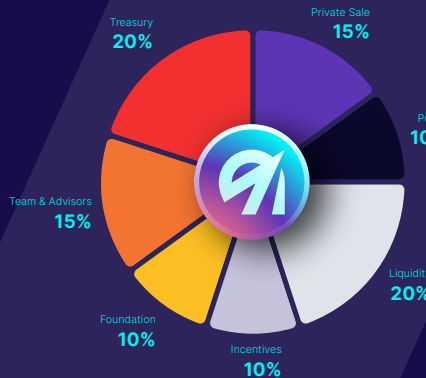

### COMMUNITY PROTECTION PLAN (CPP)

Improved token investor refund policy: Refunds offered within a 24-hour window post-TGE or a 30-day window on delayed TGE.
